

Price : \$4700.00

The Vantage VSL-10 and VSL-8 are two of our more popular models of garage storage lifts. The VSL platform provide over 77 square feet of extra garage storage space for motorcycles, ATVs, golf carts, kayaks, electric bicycles and heavy-duty lawn equipment.

The stowable platform ramps make it easy for customers to position their motor vehicles on the lowered platform. These approach ramps also come in handy when you are loading heavy boxes or plastic totes with a two-wheel cart.

The VSL-10 and VSL-8 column can be positioned on either the side wall or the front wall of your garage. If you install the VSL garage storage lift on the side wall, make sure that the loaded platform can be raised high enough to allow your vehicle to be parked under it. If you mount the VSL column on the front wall, the loaded platform needs to be raised just high enough to accommodate the hood of the parked vehicle.

Start using all the space your garage has to offer. Your unused cubic space can easily become valuable floor space with the help of a Vantage Storage Lift.

PRODUCT INFORMATION

Capacity * (Weight evenly distributed) : 1,500 LBS.

Column Height : 94.5" (7'10.5")

Total Width : 102" (8'6")

Platform Width : 96" (8')

Total Depth * : 120" (10")

Platform Depth : 116" (9'8")

Clearance Under Platform at Max Height : 67" (5'7")

Lifting Time (feet per minute) 110 volt * : 6.5' +/-

Lifting Time (feet per minute) 220 volt * : 13' +/-

Shipping Weight : 1,170 LBS.

Shipping Dimensions (LxWxH) : 121"x30"x28"

* When weight is EVENLY distributed across platform.

* Lifting times calculated with no weight on platform.

* Platform width and depth measurements are at widest/deepest points on platform on VSLC models.

* Total depth is front of platform to back of the support plate on column base. Does NOT include approach ramps. Add 18" for approach ramps when extended on all models except for VSLs (add 13.5").
